## DELIVERY LOCATIONS AND LANGUAGES

OSACO can deliver training in any country not currently engaged in war or armed conflict, and we can deliver training online. We currently deliver training in English and French; training development for Spanish and Portuguese delivery is currently underway.

## RE-CERTIFICATION

An organisation can be re-certified by OSACO after 24 months by completing an updated needs assessment.

We will review case files, check adherence to best practice and policies, ascertain training pathways and meet with management. This will demonstrate that the organisation retains the necessary systems, policies and resources to effectively manage investigations.

Individual investigator re-certification would entail several case reviews and a meeting with the investigator's Manager.

## PROVEN RESULTS

We seek feedback from all our delivered training so that we continue to improve, and identify gaps. The feedback we receive is consistently positive, resulting in on-going training partnerships, and offering you assurance of the quality of the training you and your organisation will receive.
